<b>Description</b>	For the Overhoeks urban development in Amsterdam Noord we realised two apartment complexes, Overhoeks Blocks J&K. Block J is a 28-metre building with 84 apartments, and Block K a 25-metre building with 77 apartments. Special 30-meter-long tunnel formwork were designed to improve speed and efficiency. Thanks to our expertise, tunnel formwork could be used to cast the slabs for Block K's organically shaped floors.
<b>Commissioning party</b>	Dura Vermeer
<b>Height</b>	28m
<b>Number of levels</b>	8
<b>Surface area</b>	25000 m <sup>2</sup>
