<b>Description</b>	Hotel Moxy is a 3-star hotel with 159 rooms. The hotel is built in an area with high earthquake sensitivity. Huge water pipes run under the building to provide a number of companies in the area behind with water. All this results in a construction that is heavily reinforced. Due to the high quality of the construction, the raw concrete works in the rooms and public areas have been delivered as final visible work.
<b>Commissioning party</b>	van de Ven
